## WHY DAVIS-K PRODUCTS ??

DAVIS-K PRODUCTS CO. is a primary manufacturer of Gold, Rhodium and Silver products used worldwide for engineering and decorative applications. Our products are of the highest quality as they are painstakingly batch produced utilizing the purest grades of precious metals. An extensive QUALITY CONTROL PROGRAM at DAVIS-K assures the highest level of consistency from batch to batch.

Our POTASSIUM GOLD CYANIDE is known as one of the purest grades available on the market. We formulate color gold solutions to “flash” complete variety of gold colors-from 24KT to 14KT pale-from pink gold to green gold. For bright deposits up to 5 microns thick our mildly acidic DKP CLAD process is recommended.

DAVIS-K RHODIUM concentrates are capable of producing the whitest finish possible. They have gained the whitest, brightest finish possible. They have gained the reputation of #1 RHODIUM in the market, both for tank and pen plating. Our uniquely developed A-301 PEN PLATING process represents the latest breakthrough in high speed, bright, white RHODIUM from the pen.

We ship our products to the most demanding and discerning customers and back them up with individual attention to their needs and requests. The DAVIS-K TECHNICAL SERVICE LABORATORY and experienced chemists are available to guide our clientele and help to achieve their desired results.

We think **YOU** will know **WHY** you will use DAVIS-K Products after trying us once. Please call 718-851-3100 or fax 718-851-0133 and give us a try. Or call us on our **toll free order hotline 1-888-RHODIUM**
